► **THE KITCHEN** The jack-of-all-trades room: Cook, hang and entertain.

**SOURCE-ERER** Finds like the textured glass in the drawers, a customized hood and 1920s industrial lights found from an old warehouse are Weinberg's specialty.

**JIM WEINBERG**

The superstar of this kitchen is the unusual Crystallized Mosaic Tile from Traditions in Tile ([traditionsintile.com](http://traditionsintile.com)) that ascends an entire wall. The iridescent reds and pinks play beautifully against the steel appliances. The heart

of a historic 1920s home in Decatur, the kitchen is a bow to the past, with a nod to the future. Weinberg's signature style of blending new with old is apparent in a two-ton organic countertop coalesced with the retro effect of the period-specific beadboard below it. **SPACE INVADER**

“Appliances are the first thing that date a space,” says Matthew Quinn, a top kitchen specialist at Design Galleria. “But if I’m going to change anything, lighting is No. 1—it transforms a room fastest.” Quinn’s last kitchen overhaul was in Kazakhstan. Before that, London. Luckily, he’s Atlanta-based so he can bring all that worldly experience to locals. While marble still rules the counter world, Quinn predicts monochromatic back-painted glass will be an ensuing trend. And technology is the real game-changer. “I just did a TV that ascends from the island.” [404.261.0111](http://404.261.0111), [matthewquinncollection.com](http://matthewquinncollection.com) –SDS

**TECH BOOM** Quinn foresees TVs in oven doors in the near future.

**THE SCORE**

**TILE STYLE**

We’re digging the earth-inspired collections from Renaissance Tile & Bath at ADAC West. Shop neutral hues and their trademark vibrant mosaics, each drafting style from deftly modern to clean and contemporary. **FLOOR IT** Renaissance Tile makes the fine art of Italian glassmaking accessible across the pond. The imported Sicis tile transforms a kitchen floor.
